

Before Exxon Valdez disaster, oil tankers had Single hull

Crude oil

LESSON LEARNED??

Law passed to mandate double hulls

Crude oil

Outer plate Inner plate

1989 Oil spill devastated Prince William Sound

NOW:

Outside Air

Nuke Waste

Single Wall 5/8" or less

We will have about 10,000 thin single-wall nuclear waste canisters spread across the US

U.S. Independent Spent Fuel Storage Installations (ISFSI)

70+ NUKE WASTE DANGER ZONES

All Near Precious Water Resources

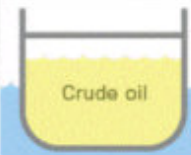

HELMs PROPOSAL

Double Wall limits corrosion

Let's avoid a catastrophe: double wall design + local surface storage, away from water, 7/24 electronic monitoring
