Dear Jennie,

This letter accompanies the attached spreadsheet, which describes minor variances discovered

I, Neal Kelley, Registrar of Voters of Orange County, do hereby certify that the statement of votes submitted is a true and correct statement of the votes cast in this county at the Statewide Direct Primary Election, as determined by the canvass of returns of said election.

I further certify that a 1 percent manual tally was conducted pursuant to Election Code section 15360 in a public forum. Twenty-one precincts were randomly selected, which included 2,961 paper ballots and 1,256 VVPAT ballots. A total of 4,217 ballots were counted as part of the 1 percent manual tally.

During the manual tally of vote-by-mail ballots, two precincts, containing six ballots, were identified as having a variance between the hand count and the machine count. This effected one contest on each ballot, for a total of six contests. Extremely faint marks were evident on the six ballots, which were recorded as undervotes during the auto resolve process. The variances were noted and verified that they were tallied as undervotes.

The 1 percent manual tally concluded with no further variances in vote-by-mail ballots and no variances in the manual tally of VVPAT ballots.

Sincerely,

A handwritten signature in blue ink, appearing to read "Neal Kelley", is written over a light blue circular stamp.
